Union Street Bridge Daily Closures - Summer 2023

6/6/23

Gowanus Remediation Team (GRT) construction will require intermittent full-day closures of the Union Street Bridge for up to five days a week. Daily Closures may take place between the hours of 8:30am to 5pm. This work began in Spring 2022 and is now expected to last through Summer 2023.

The daily closures will be in effect only on days that GRT crews are working in between the bridge abutments. On those days there will be a continuous full-day closure, and signs will be deployed at Bond and Union and Nevins and Union to indicate that the bridge is closed for the day.

The closures will be implemented on certain weekdays intermittently, based on the need to conduct specific construction activities. **For a weekly schedule of planned GRT work at the Union Street Bridge, please visit: <https://gowanussuperfund.com/bridge-information/>.**

Please note that at any time all bridges along the Gowanus Canal may experience short term closures lasting about fifteen minutes to facilitate vessel movement. Working along the canal requires frequent vessel movement, resulting in frequent short term bridge closures.

For questions and concerns please reach out to the GRT at info@gowanussuperfund.com or call the hotline at (718) 569-5762.
