

Carroll Street Bridge – Construction Notice

11/03/2025

Beginning Monday, November 10th through Friday, November 14th construction at the Carroll Street Bridge will begin at 04:00am due to the need to work at low tide.

Please be advised of the following:

- Construction activities may be noisy. Noise monitoring will be conducted adjacent to work activities to ensure that work activities remain within allowable levels.
- Additional lighting will be present on site to facilitate safe work activities.
- The purpose of these activities will be to conduct abutment formwork operations.
- No work is planned for Tuesday November 11th in observance of Veterans Day.

The Gowanus Remediation Team (GRT) is continuing to collaborate with the NYC DOT and the US EPA to repair the Carroll Street Bridge eastern abutment. The bridge is expected to be reopened in Spring 2026. Please note, this timeline may be subject to change.

Information about the cleanup's impact on Gowanus bridges can be found at gowanussuperfund.com/bridge-information. Please reach out to GRT via email at info@gowanussuperfund.com or via hotline at (718) 569-5762 with any questions.
